

Project Design Phase-II

Data Flow Diagram & User Stories

Date	20 June 2026
Team ID	24EG109A55 (Turlapati Lokesh)
Project Name	SHOPEZ - Online Shopping Application
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: [\(Simplified\)](#)

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web/Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my name, email and password.	I can access my account / dashboard after registering	High	Sprint-1
		USN-2	As a user, I will receive a confirmation email once I have registered for the application.	I receive a confirmation email and can log in	Medium	Sprint-1
	Login	USN-3	As a user, I can log into the application by entering my email & password.	I am redirected to my dashboard on successful login	High	Sprint-1

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
	Product Browsing	USN-4	As a user, I can browse and search products by category, price and rating.	I can view a filtered list of matching products	High	Sprint-1
	Cart & Checkout	USN-5	As a user, I can add products to my cart and place an order.	I receive an order confirmation with order ID	High	Sprint-2
	Order Tracking	USN-6	As a user, I can view my order history and track the status of each order.	I can see status: Placed / Shipped / Delivered	Medium	Sprint-3
Seller / Admin	Product Management	USN-7	As an admin, I can add, edit and delete products in the catalog.	Product changes reflect immediately in the storefront	High	Sprint-3
	Order Management	USN-8	As an admin, I can view all orders and update their status.	Order status updates are visible to the customer	High	Sprint-3
